

BAIVINA

My Queen

*"Ruby and Rose gold,
keep you warm from the cold.*

*The tiara has been mold,
May our love never turns old."*

Three of seven provided stones have been picked out due to their warmer hues and saturation.

A modified Baroque style was chosen to match the royal and elegant sense of the precious gems.

A tiara on the wrist, only made for My Queen.

My King

*"Emerald, sapphire and diamonds along,
the blessings found where they belong."*

*Green for young and Blue for strong,
a king always needs his crown."*

The variety of the shapes is challengeable for the design, but also make it unique -- just as the king.

Rose and white gold are used as the compensation for the saturation of the stones.

The style is more masculine compare to the matching bracelet, "My Queen".

A crown on the wrist, only made for My King.
